

## **Visual Art 20S**

This course contains a mix of art theory and practical applications. This means that you will spend time learning about art AND creating your own. Students hone their technical skills and begin to spend more time on complex and detailed works of art. Students will develop deeper observational skills will have more opportunities for choice as they participate in drawing, painting, and craft. To complete this course, you will need to read the lessons in order and complete the assignments as you reach them in the content.
